

### **Technical Rule no. 24 MPE**

(under article 4 of the Integrated Text of the Electricity Market Rules, approved by the Decree of the Minister of Productive Activities of 19 December 2003, as subsequently amended and supplemented)

<b>Title</b>	<b>Creation of zonal portfolios</b>
Reference Legislation	Article 26, para. 26.4, Integrated Text of the Electricity Market Rules

**Published on 31 December 2024**

## **1. Foreword**

Article 26, para. 26.4 of the Integrated Text of the Electricity Market Rules (hereafter “ME Rules”) establishes that, in the MGP and MI, GME shall assign to each Market Participant a predefined zonal injection or withdrawal portfolio for each of the units in respect of which such Participant is entitled to refer portfolio bids/offers. GME may define additional procedures for building zonal portfolios by aggregating one or more injection or withdrawal units, having the same BRP, while satisfying the criteria defined in the Dispatching Rules.

## **2. Creation of portfolios**

To enable the operation of the MGP and MI, the unit aggregation criterion adopted by GME to build portfolios will be the one used for the predefined assignment of portfolios in accordance with Article 26 of the ME Rules. Thus, any additional way to define portfolios will be excluded.
